

El Establo

Mountain Hotel

Monteverde, Costa Rica

Who we are

Brief review

Hotel El Establo, your home on the mountain was established in 1991 with a story behind its name, and the effort of a family that changed its cattle for tourism.

It all started transforming the farm's stable into 12 cosy rooms. Today, 20 years later and with 155 rooms, there are only memories of the cattle; but the desire to offer the highest quality service to all our clients and suppliers still remains.

Hotel El Establo and its staff have now a serious commitment with nature and the community, in always

looking for the best human and environmental development for the area.

Our hotel is characterized by having a great interest in preserving nature and the environment. This is the reason why we are practicing a special Environmental Management System which is allowing us to stand out in our region. Our desire is for everyone close to us, to share this important and necessary practice of preserving the biodiversity of our ecosystem.
