Located on the Main Water Channel

National Park TORTUGUERO, the North Caribbean, Costa Rica

Tortuguero is on Costa Rica's North Caribbean Region, one of the most diverse National Parks, with 11 ecological habitats, from high rainforest to herbaceous marsh communities. Back of the lagoon is a coastal rainforest threaded by an infinite maze of serpentine canals and streams fed by rivers flowing from the central mountain range

A room at Manatus Hotel begins with an extraordinary sense of peace and solace. Your exclusive room is designed to inspire; its beauty connects you with the surrounding environment of a wildlife sanctuary and of water canals. Enjoy nature at its maximum splendor, without sacrificing comfort; our pool next to the canal gives our guests the illusion of becoming one with the wild."

We received the "NATIONAL GEOGRAPHIC FLAG", thanks to the support, that the hotel has been giving for a program to protect the Manatee, threatened specie in Tortuguero.

In Manatus, and attention of quality is not an exception is a rule. We offer VIP services and all the possibilities for romantic getaways, family vacations, sports and adventures escapes.

Activities

Fishing Tour

The fishing tour provides the opportunity to enjoy the life style of the sport fishing and it is as well an excellent option to pass time of quality with family or friends.

Canopy Tour

It offers to the adventurous tourists the incredible experience to cross the forest from the canopy of the trees.

Kayaks

There are few ways to see the wild life as from kayak that quietly and smoothly slides among the colorful water channels.

Aquatic Bicycle

Tortuguero is characterized by its beauty and its beautiful channels. The aquatic bicycle is the best way to enjoy them.

Frogs and Bird Watching

We have reconstructed in our trails the natural habitat of the frogs,

allowing these animals to live safe and creating the right conditions for them to reproduce. Besides that our platforms in the trees offer the possibility so see wildlife, specially birds, from a perspective reserved to a selected group of investigators and photographers.

Turtle Tour

Be part of this incredible phenomenon of the nature in the most important site of the western part of the Caribbean for the egg-laying of the Green Turtle (Only June, July and August).

THE MANATEES' CONSERVATION

Our main concern is nature conservation and the preservation of threatened species such as the manatee. For that reason we join forces with the Manatee Conservation Foundation, with the objective to create an information program for the community in order to understand their behavior and protect their habitat.

Thanks to that effort, our hotel was awarded with the "National Geographic Flag", which we exhibit to remind us Dr. Bernard Nietschmann's words on that occasion:

"To preserve the silent sirens (manatees) who live under the black waters..."
